Excavate in each of places voted by Committee

Work on topography of Roman City  
Dock, market, Gates & monuments  
therein.

Trench heights above Harbor for  
early city: Spur W of Gorge & low  
sloping Spur E of gorge. Choice of  
W because handier easy & available  
(Khary in Alp); pottery considerably  
early & this spur seemed abandoned  
after tunnel finished while Western  
Spur has late as well as early.  
E spur requires a full long campaign  
working from Kabouziy.
